

THIS TWO FORMS WILL ADD RECORD SAME ENTITY (Entity 35)

Reference:

- One form using normal button (Picture No.1)
- Other form using Automate Action Form with Manually Entry (Picture No.2)
- Entity 35 and Entity 22 are same level (as a subtask) from entity 21 (see Picture No.3)

This two form (Picture No. 1&2) have different result when you use “entity field with dropdown” (dropdown take from entity id. 22), **in normal button will show only record in current project**, but if use Automate Action manually entry **will show other entry from other project.**
